Riferimento	EURES Finland - EOJD 11/02/2021
Mansione	Strawberry picker
	<p>Strawberry picker Workplace country: Finland Sector: Agriculture, forestry and fishing Occupation field: Agricultural, fishery and related labourers Education field: Agriculture, forestry and fishery, Transport services Language skills: English basic, Finnish (Suomi)>Basic, Russian (Русский)>Basic Work experience: Work experience is not required Application methods: Application via platform https://www.europeanjobdays.eu/en/job/strawberry-picker and send CV in English to eures@afolmet.it Type of position: Seasonal Number of positions: 10 Date of expiry: Thursday, April 15, 2021 Our strawberry farm lies in central Finland and every year we hire about 30 seasonal workers. This time we are looking workers for harvesting season, which is about a month long and starts usually in the end of June or early July. We expect our workers to be hardworking and honest, to be able to work outside in any weather and to be in good health. Sincerity and tolerance are also good features, when you are working in foreign country and living together with people from different countries. We would like to hear, if you have special skills, for example experience of driving tractor or driving licence C. The work will include picking strawberries. Few workers will be placed in quality control, packing and transporting. In harvesting work we use piece rate instead of normal hour wage. If you are hardworking, you can earn good money! Other terms of employment are determined in collective agreement. We offer you also farmer's help with working documents and every-day life in Finland. Seasonal workers live in our farm in cozy 2-6 persons rooms. Kitchen, toilets and showers are common to all. Free WiFi and washing machine are in free use and we also have a car for going to the market. In your free time you can for example enjoy beautiful Finnish nature by walking, riding a bike or rowing a boat. Likely the COVID19 -situation will affect to our lives during the spring and summer 2021 too. To avoid lots of changes, we wish the chosen workers to leave application for seasonal work certificate in good time, get ready for little higher travelling costs than usually and be prepared for quarantines on the way to Finland and back. If you are interested, please leave an application here</p>

Riferimento	EURES Finland - EOJD 11/02/2021
Mansione	Senior games programmer (Unreal Engine)
	<p>Senior games programmer (Unreal Engine) Workplace country: Finland Sector: Computer programming, consultancy and related activities Education level: University studies (Bachelor) Education field: Computing Language skills: English>Very good Work experience: Between 2 and 5 years Application method: Application via platform https://www.europeanjobdays.eu/en/job/senior-games-programmer-unreal-engine and send CV in English to eures@afolmet.it Type of position: Full-time Number of positions: 1 Required ESCO skills: C++ (programming language) Date of expiry: Friday, April 9, 2021 AILiveSim is a young startup, that uses game technology to create realistic dynamic simulation for training and testing AI algorithms. Our software can be used to augment datasets, collect associated ground truth, train new learning algorithms using curriculum, or various types of testing. We create environments that look realistic, are parametric and we model some procedural elements to allow for a maximum of variations. Your responsibility will be to design and implement parts of our system and to guide and the content team. We expect successful candidates to have some of the following : <ul style="list-style-type: none"> - experience with programming game play, graphics, animations or other subsystems or tools - know about games or real time 3D simulation - familiar with unreal engine - c/c++, python - computer graphics - game development - test driven development - neural networks - embedded robotics software We offer a motivating compensation plan, a large amount of freedom in your work and an unmatched human adventure. You will get a chance to play a key role in the life of the company. We are currently looking for exceptional candidates, self-driven and with a strong motivation. We value experience and education but we also know that talent doesn't necessarily comes with the number of years. We also believe in the power of the team, so a team player that is able to communicate and brainstorm is considered a must. List of restrictions that apply to this job offer: The candidate must have previous 3D development experience. The candidate must be highly skilled and self motivated. The candidate must be a good team player and the team dynamics is important.</p>
